ILLUSTRATIONS

	PAGE
Brilliant circumzenithal arc, Aberdeen, March 24th, 1936 ... <i>Frontispiece</i>	
Solarimeter with pyrhelimetric tube	2
Solarigraph	3
Solarigraphic records obtained at South Kensington with nearly clear sky	4
Solarigraphic records obtained at South Kensington with broken cloud	5
Integrating milliampere-hour indicator	5
Diagram of Moltchanoff meteorograph	7
Diagram of Väisälä meteorograph plate condensers	9
Diagram of Väisälä meteorograph condenser contacts and circuit	9
Mean pressure distribution, January 1st–10th, 1936	11
Large hailstones at Northampton	15
Curves showing relation between barometric height, wet-bulb temperature and percentage number of cases of no rain, Grayshott	18, 119
Diagram of an intense occluded depression	36
Monthly oscillations in wind direction and force, Goff's Oak, March to August, 1935	41
Location of thunderstorm sources in Tasman sea and Coral seas, March, 1934	61
Stratocumulus bourgeonnant at Tananarive	66
Macrocarpa tree showing effect of prevailing winds	66
Isopleths of difference between screen and grass minima, Goff's Oak, 1935	68
Isopleths of difference between 16h. and screen minimum temperature, Peshawar	70
Curves showing relation between difference of 16h. and screen minimum temperatures, and between 16h. temperature and dew point	71
Mean pressure distribution April 12th–19th, 1936	82
Curves of the variation in frequency with which objects at 220 yards, 1,100 yards and 2,200 yards are visible at Croydon during winter	84
Vector diagram of true and observed wind velocity at sea	88
Halo phenomena witnessed at Sealand	91
Stream-lines, The world, January	108
Stream-lines, The world, July	109

	PAGE
Curves giving the percentage frequency with which any given wind speed was not exceeded at Kew	111
Autographic records during a minor " haboob " at Ismailia, Egypt ...	112
Minor haboob at Ismailia	112 <i>facing</i>
Anemogram at Abu Sueir, June 18th, 1932	113
Wind vane mast with 10 ft. and 20 ft. thermometers, Goff's Oak ...	129 <i>facing</i>
Details of fixing of thermometers to mast, Goff's Oak	129 <i>facing</i>
Curves showing deviation of minimum temperatures at various altitudes from screen minimum at Goff's Oak	130
Curves of wind force, amount of cloud, and deviation of minimum temperature at various altitudes from screen minimum	132
3-Cup Anemometer	134 <i>facing</i>
Waterspout in the Indian Ocean, October, 1935	135 <i>facing</i>
Phenomenon witnessed in New Zealand, February 29th, 1936 ...	135
Unusual solar phenomenon	139
Recurrent group lightning flashes... ..	141
Anemogram of catabatic west wind from the Sea of Galilee	154
Synoptic chart, British Isles 13h. July 18th, 1936	156
